Work History

2022-09 - present

Web/Software Developer Intern
Teamcal Ai - Mountain View, California, USA
Working on automatic meeting scheduling Web App using PHP, MySQL, CodeIgniter, HTML, CSS, JavaScript, Bootstrap. Working with existing code, fixing bugs and implementing new features.

2018-03 - 2021-07

Road Transport Specialist
Raben Group - Oss, Netherlands
Organizing Full Truck Load transport between European countries. On my 2nd year took over customer-care responsibilities of top-3 client, who was on the edge of ending cooperation and improved delivery performance as well as information flow, which led to continuation contract and increased number of orders.

2018-01 - 2018-02

Full Truck Transport Intern
Raben Group - Oss, Netherlands
Studied current Full Truck Load transportation systems, analyzed effectiveness, use, and needs.

2017-10 - 2017-12

Supply Department Intern
Dpointgroup - Barcelona, Spain
Storage and purchase management, conducting research on potential products, vendors, and services, and comparing price and quality to ensure the best deal.

2015-04 - 2017-09

Logistics Operations Specialist
Fresh Logistics, Raben Group - Szczecin, Poland
Domestic distribution transport management, route planning, customer orders handling and communication, warehouse operations.

2015-02 - 2015-02

Logistics Operations Intern
Fresh Logistics, Raben Group - Szczecin, Poland
Learned how to use Transport Management System used by company, completed forklift and warehouse equipment certifications.

Education

2021-08 - 2022-05

Certificate Program: Mobile/Web Application Development
City College of San Francisco - San Francisco, California, USA
- Dean's List Fall 2021
